Issued: September 18, 2012
Bulletin: 12-105E

Special EMS Seminar:
NYSDOH CME Recertification Program Update

Course Description:
In 2011, the New York State Emergency Medical Advisory Committee (SEMSCO) voted to adopt the National EMS Educational Standards. Over the past year or so the Bureau of EMS (BEMS) has been working on rollout plan that will begin with this December’s EMT and CFR exams. Along with the modifications to the certification courses that are being taught through the EMS Course Sponsors, the Continuing Medical Education (CME) Recertification Program has also undergone some significant retooling. These changes will affect all levels of providers who are due to expire after December 20, 2012.

Join Richard Robinson, EMTP/CIC, Senior EMS Representative, NYSDOH MARO, in reviewing important information ALL EMTs should know before completing their next recertification package. This program will review the new forms, the special “supplemental” form, as well as how the structure of the CME Program has been modified to align it with the NYS’s move to the National EMS Educational Standards.

This course may be applied toward General Elective CME hours under the NYSDOH Bureau of EMS CME Recertification Program.
